

Run For Color – Shuffle Correction

This correction replaces the Shuffle the Decks section on Page 3 of the Run For Color pattern. P403

Shuffle the Decks

Once a deck has been cut, it's time to shuffle or mix the pieces up so each layer will have a variety of colors. Follow the illustration and shuffle your decks by moving the segments from the top of each stack to the bottom of that stack. Note that the fabric for the first and sixth segment are identical.
